

Sprint 2 Report - Travelog

11/5/24

Actions to stop doing:

- The team should stop overwriting others' codes before they finish their task or explicitly ask for help to avoid large merge conflicts.
- The team should stop checking off the task before they push to the main branch to avoid confusion about the completeness of the task.
- The team should stop underestimating the workload per task.

Actions to start doing:

- The team should start doing things earlier and finish their task by the deadlines to ensure that we are able to complete tasks we signed up for.
- The team should discuss with the group beforehand about the design.

Actions to keep doing:

- The team should keep following Agile methodology and update the Jira board regularly so that we know the progress of each task.
- The team should continue to communicate with each other and for any question/concerns.
- The team should continue to attend meetings regularly so that we can all stay up-to-date on the project and discuss necessary changes or topics.

Work completed/not completed (excluding test):

Sprint 1 user stories:

- As a **traveler**, I want to be able to create an account and personal profile to save my trip information, as well as update my profile picture, password, and name.
- As a **traveler**, I want the ability to navigate around an intuitive, interactive world map that allows me to drop pins to highlight any place or landmark of interest.
- As a **traveler**, I want to write descriptive thoughts or captions about the location, such as travel experiences, favorite moments, and reflections, so that I can memorize my travel history.

Sprint 2 user stories:

- As a **traveler**, I want to upload pictures and videos that I took during my trips to visually document my experiences.
- As a **frequent traveler**, I want to have access to statistics that track the total distance traveled, how many countries; cities, or continents I've visited to make traveling more fun and interactive.
- As a **trip planner**, I want to better easily plan my trips, creating a list of places and favorites I want to tour and having the ability to easily see how much progress I have

made in my list during the trip automatically so that I can gain a feeling of checking off my bucket list and inspire planning for future trips.

- As a **traveler**, I want to search for a location and be automatically directed to it on the map, so that I can quickly access and pin it to my travel log.

Work completion rate:

- Total number of user stories completed during the prior sprint: 4
- Total number of estimated ideal work hours completed during the prior sprint: 45 hours
- Total number of days during the prior sprint: 14
- Average user stories per day: 2/7
- Average ideal work hours/day: 10
